CAREER EDUCATION
IN IBM SOFTWARE

Are you or your friends looking for an exciting career with MNCs (like IBM, Verizon, Fidelity) or with top Indian IT companies like Infosys, TCS, Wipro, and Satyam?

“ **Here is an opportunity to reach your goal!** ”

Rush!!!

**Limited seats!!!
Be an early joiner!!!
Be an early winner!!!**

IBM launches career focused courses for fresher and for those who are trying to get into booming IT Sector. As you know IBM is one of the large IT organizations in the world with 300000 + employees.

How will you get exciting career through IBM CEIS?

In the IT world today there is a serious lack of trained professionals with the desired skill sets to take on the ever increasing demands of an industry which has been marked by sustained double digit revenue growth.

The IBM Career Education in IBM Software (CEIS) program is the ideal educational solution to prepare fresh graduates and career professionals for today's information technology demands, helping them to acquire all the skills, education and experience they need to build successful careers in this industry.

CEIS brings together existing IBM Software Education courses into a simple and coherent program targeted for specific career paths. Choose a suitable career path for yourself by following the courses on offer that is designed to launch your "Global Career".

The curriculum design incorporates a "blended learning" approach by integrating classroom, hands-on lab exercises and team projects to provide students both the theoretical and practical training needed to build strong database administration, e-business administration, application development and testing skills.

For registration, please call 98406 01292 / 6457 3114
